Mission of OriginArt

It is our mission to give artists with a mental disability a stage in companies and government agencies.

Art in your company

Many companies like to enhance their interiors with Art. It is well known that this has a positive effect on employees and customers alike. It adds color, atmosphere and fun to merely functional space.

Our artists, without exception, are very proud when their Art is

exhibited in your space, especially knowing that it will be seen by lots of people.

OriginArt takes this one step further.

Often one of our artists helps us arrange the exhibition, of course in consultation with our customer.

If you choose OriginArt you not only get unique colorful Art, you also receive full service. We provide advise, insurance and annual change of Artwork.

Artists

In general it can be said that an artist is inspired by reflection of himself or the world around him. From this point he creates an image that connects to his perception. For artists with an intellectual disability there is no difference.

Many of our artists can not read or write and they find it hard to express their feelings in words. Imagery however, they share with us through their paintings, shows us more than words can tell.

Collection & Talent

Fishgreen - Heidi Arbouw - acrylic on canvas - 100 x 100 cm

Collection

OriginArt owns over one thousand pieces of Art. A lot of them are smashing, some are more modest or even black and white.

Sizes vary from a small paper to a huge canvas.

This collection is carefully selected for its quality and it is adapted for businesses.

Through our contacts with artistic day-care programs we have access to thousands more Artworks.

Talent

Like every human being, people with an intellectual disability are born with talents. Some may be good carpenters, others are good painters. But, just like in the 'normal' world, only talent alone is not good enough. Talent needs to be developed and fed.

Artists with intellectual disabilities are often not able to go to regular Art schools. Their talents are developed by self-education, by hard working professionals and volunteers in day-care programmes. They learn them the use of different techniques and materials.

Original Art

Every piece of Art shows us something about how the artist is looking at the world.

The use of color, composition and materials is not a coincidence, it's the result of choices, made by the artists. It represents a reflection of their vision of the world or themselves.

Therefore we believe that these paintings are full and original Art.

About OriginArt

OriginArt is founded in 2004 by Lucienne Verhaar.

'In 2003 I saw an exhibition of Art made by people with a mental disability. I was immediately sold! So much color and so much positivity!'

'I immediately knew that at this point all tracks of my life came together. I already knew a lot about renting Art to companies and thru my son i was familiar in the world of the mentally disabled.

After a period of thoroughly

orientation on the market and the artistic day-care programs I started OriginArt in 2004.'

Today OriginArt is a small but healthy company. For quite some time now, we are housed in the same building as 'Atelier KOA'. One of the artistic day-care programs with whom we fantastically collaborate since our start in 2004.
